SKILLS

- Java Core - OOP, Collections Framework, Stream API.
- Code Quality - Clean Code principles, SOLID.
- Spring Framework - Spring Boot, Spring MVC, Spring Data JPA, Spring Security.
- SQL & ORM - PostgreSQL, Hibernate, JDBC API, Database Schema Design.
- Web Services - REST API, JWT (Security), OpenAPI 3.0 (Swagger), Thymeleaf.
- Testing - JUnit 5, Unit Testing, Integration Testing.
- DevOps & Tools - Git (GitLab), Docker, IntelliJ IDEA, Eclipse, Maven/Gradle.
- Multithreading - Synchronization (Lock, Condition), Thread, Pools, Future, CountdownLatch.

LANGUAGES

- English (Intermediate)
- Hebrew (Basics)
- Ukrainian (Native)
- Russian (Fluent)

YURI PAVLENKO

Junior Trainee Java Developer

I code in Java for food. But the food must be good!

Certified Java Spring Developer with a solid engineering background and a disciplined approach to software design. Successfully completed an intensive full-stack program covering the entire development lifecycle. I'm looking for a Junior Developer role to apply and improve my skills in a modern IT company. I'm interested in long-term, stable employment.

EDUCATION

Jan 2025 **Java Spring Developer**

Jan 2026 [FoxmindEd](#)

Focusing on clean code principles and architectural patterns in Java development.

[Certificate of Java Spring Development](#)

Oct 2000 **Visual Basic 6.0 Programmer**

Jan 2002 [CLR Quantor](#)

[Certificate of Visual Basic 6.0](#)

Sept 1993 **Master of Science (MSc) in Management and Economics.**

Mar 2000 [V.V.Dokuchaev Kharkiv National Agrarian University](#)

GPA: 4.8 / 5.00

[Diploma of KNAU named after V.V. Dokuchaev](#)

EXPERIENCE

Jan 2025

Java Developer (Trainee / Projects)

FoxmindEd

Present

[UniversityCMS V0.1](#)

- Developed a full-stack educational CMS from scratch using Java, PostgreSQL, and a web interface.
- Engineered a comprehensive multi-tier architecture designed for scalability and future functionality expansion.
- Managed database evolution via Flyway migrations and ensured core reliability with JUnit 5 and Mockito.

[SchoolManagementSystem V0.1](#)

- Developed a Spring Boot console application for managing students, courses, and groups using PostgreSQL, Spring Data JPA/Hibernate, Flyway, and Testcontainers.

[StockMarketSystem V0.1](#)

- Engineered a high-performance multithreaded Stock Exchange simulation using java.util.concurrent with a custom "circuit breaker" mechanism to suspend trading based on market thresholds or session expiration.
- Optimized memory usage and object allocation through performance profiling with VisualVM.

Executive & Engineering Experience

Nov 2020

Engineering & Adaptation (Israel)

Jan 2025

- Design Engineer aluminum structures for building facades, demonstrating a quick transition into the Israeli engineering sector and mastery of new technical standards.

1991

Strategic Leadership & Management (Ukraine)

Nov 2020

- 30+ years of experience in team management, including 20+ years in senior executive roles within an electrical engineering company.
- Orchestrated complex industrial projects by applying rigorous analytical skills and architectural thinking to business processes.
